ARE YOU A WHISTLEBLOWER ?

A simple means to test whether or not you are a whistleblower is to answer the following four questions.

1. Can you precisely identify not only the objectionable activity or practice but also the public interest that are threatened and the magnitude of the harm that will result from non-disclosure ?.
2. Can you verify the accuracy of your knowledge of the situation
3. Can you identify ethical standards as well as laws, rules and regulations that support your decision to blow-the-whistle ?.
4. Have you developed a plan of action and considered the personal costs and the likely response of allies and antagonists within and outside the organisation or department?

IF, you have answered yes to all four questions, you should join WHISTLEBLOWERS ANONYMOUS as a whistleblower.

IF, you are still uncertain, you can join Whistleblowers Anonymous as a supporter.

MEMBERSHIP FEE, \$20, send your application to:
